Hollow Dong with  
Strap-On Harness

# Be Stronger, Last Longer

Experiencing the effects of erectile dysfunction? Looking for an enhancement for erection length or girth? Hoping to find a non-pharmaceutical and non-invasive solution? Longing to maintain intimacy with your partner? The Everlaster Hollow Strap-On by Sportsheets is your answer.

Our Everlaster erection booster consists of a hollow, realistic-looking dildo that slides over your semi-erect or soft penis like a glove. Our 6.5 inch dildo is made with firm material to provide sturdy and long-lasting penetration. An ergonomically designed strap-on holds the dildo in place and snug against your body, with an opening that allows your non-erect penis to fit through the strap-on and inside the hollow dildo. Our harness adjusts with nylon straps and quick release tension locks to conform to your body quickly and comfortably. The harness is designed to fit around the ball sack for added comfort.

The Everlaster series can give you the confidence you need to add a hollow strap-on to your intercourse and not only for men with ED. Our hollow strap-on can prolong sexual encounters which makes for very satisfied partners and improved intimacy.

### Everlaster-Wishbone™

- 4 Way adjustable harness with ergonomic ball sack clearance
- Fits hips up to 69" (175.3cm)
- 1 Hollow dildo (6.5", 16.5cm)
- 1-2" O-Ring
- Available in white, brown, or black

# Features and Specifications

A hollow plastic penis is included, dildo length: ~6.25", Girth (circumference): 5.125" (13cm), Inner Diameter: 1.25" (3.2cm), Internal Insertion Depth: 4.125" (10.5cm).

Keeping the dildo in place is a sturdy, 4-way adjustable harness. Strap length accommodates waist sizes up to 69" (175.3cm). Four quick release tension locks ensure that each strap stays where it's supposed to, allowing you to adjust the waist and leg size independently.

4 adjustable tension-locks allow one handed adjusting, solid hold, and one handed quick release.

Snaps allow you to remove the included O-Ring and replace it with a different size O-Ring to accommodate other attachments.

# Product Review

A User's Perspective  
By Don Rock

The Everlaster-Stud is a product that gives a guy the ability to strap-on a hollow dildo and satisfy his partner in any position, and for any length of time. It consists of a harness that is much better than most and a rigid dildo that can "stand up" to the stresses of hard sex.

The Everlaster-Stud by Sportsheets is a pseudo-penis strap-on system geared for men. It's ready to go right out of the box and is meant to be used by anyone; especially those who are having premature ejaculation, erectile dysfunction, or other penis issues.

If you want to use the dildo with an erection, and your erect length is more than 4.125", then forget it. However, you can still use this item if you're able to remain flaccid and you're not hung like a horse. I guess this is why Sportsheets' website calls the included plastic penis an "introductory level dildo". Then again, if 4.125" is all you need, then this is a perfect system for you.

I did manage to use the Everlaster-Stud strap-on as long as I stayed limp. Although my penis didn't fit in the hollow area very well, it was still pretty fun to use and you hardly notice that you're wearing it.

A WOMAN'S ASSESSMENT. In my girl's opinion, the dildo's shape and texture provides a good feel. She liked the upward curve and the realistic bumps and features. She also approved of the smooth, almost silky feel of the material, and the fact that it's rigid but with a slight bit of flexibility.

The only thing that she would have liked to see is more of a pronounced ridge around the head of the dildo. Other than that, it was an eye-crossing experience for her!

OVERALL PERFORMANCE. I have to say, that I'm surprised at how well the harness works. It fits good, and is quite comfortable. Because of the strap arrangement, this system doesn't pinch, or otherwise bother your testicles. The fake wang stayed straight and steady through each of our "test sessions" and functioned perfectly at every angle and position.

CONCLUSION AND RECOMMENDATION. You can do some serious banging with the Everlaster-Stud strap-on. My only issue with it is that the insertion depth of the included dildo is limited to 4.125". Other than that, I have nothing but good things to say about it.

I would recommend this product to appropriately sized men, and those with premature ejaculation, erectile dysfunction, or other penis related problems that would otherwise keep them from properly satisfying their partners.
